

ARCHITECTS SHOW THEIR BEST WORK

Annual Exhibition in Corcoran Art Gallery.

WASHINGTON CLUB STRONG

Has Some Most Famous Designers in the Country—Large Local Contributions.

The Washington Architectural Club is holding its sixth annual exhibition in the atrium of the Corcoran Art Gallery.

This exhibition is of peculiar interest, inasmuch as it has been the plan of the National Capital's architects to follow, as closely as possible the traditional building of the American Republic. The exhibition is of local residential work, but other cities have also contributed. The Washington Architectural Club includes four honorary, ninety-three active, thirty-eight non-resident, and seven associate members. Two hold the complimentary membership of 1905-1906, and there are two traveling scholars.

Washington Exhibitors.

Among the Washington exhibitors are P. C. Adams, study for a hospital for marines; Ernest C. Bailew's photographs and architectural sculpture; Edgar Blair's designs of the Champlain apartments; James F. Early & Son's ornamental detail of the United States custom house, Baltimore; the fountain, United States Government building, Portland, Ore., and two ecclesiastical designs; Harding & Upham's photographs of the Washington Y. M. C. A. building, study of proposed Y. M. C. A. building at Charles Town, W. Va.; president's house for the Davis and Elkins College, at Elkins, W. Va.; United States Weather Bureau Observatory, Mt. Weather, Va.; study for proposed Y. M. C. A. building, Annapolis, Md., and the administration building for Wesleyan University, Buckhannon, W. Va.

Other local architects exhibiting are Arthur B. Henton, L. M. Leisegang, Marsh and Peter, Walter E. Plunkham, Mills Thompson, Hornblower & Marshall, R. A. Tressington, Totten & Rogers, F. E. M. Main, advisory architect of the Quartermaster General United States Army, War Department; Wood, Donn & Whiting, Percy Ash, of the George Washington University, and James Knox Taylor, Supervising Architect of the Treasury Department. In addition to highly interesting conceptions of architectural designs in buildings, decorations, studies, photography, decorative tiles, vases, panels, garden plots, fountains, and other well-known authorities from Boston, New York, Chicago, Cambridge, Philadelphia, Baltimore, St. Louis, and Paris, there are commendable efforts from students of the Massachusetts Institute of Technology, Columbia University, the University of Pennsylvania, and George Washington University, whose school of architecture compares favorably with the most important institutions of the kind in the country.

LITTLEFIELD IN ARMS AGAINST LIABILITY BILL

Speaker Fails to Allow Measure to Be Called Up—Uncertain When It Will Be Considered.

Representative Littlefield of Maine has taken up the cudgels in opposition to the employers' liability bill, to which he has been steadfastly opposed throughout the hearings in the Committee on Judiciary.

The bill was reported to the House with some amendments, but in a form that on the whole is satisfactory to the labor organizations and other interests that have been asking its passage for a number of years.

Speaker Cannon has agreed to let it be called up, and yesterday had agreed to recognize Mr. Sterling, of the committee, for that purpose. At the last moment, however, protest was made to the Speaker, on the ground that two members of the committee, who are opposed to the bill and desired to be present when it was taken up, were absent. This induced the Speaker to withdraw his consent, and it is now uncertain when another opportunity will be found. Advocates of the bill are not doubtful of the outcome if they can get it before the House, but they are anxious to get it up and passed as early as possible, in order that they may organize a campaign in the Senate for action this session. As usual, the Senate is regarded as the sticking point for this measure.

COW RUNNING AMUCK STOPPED BIG HEARSE

NEW YORK, March 20.—A rebellious cow caused no end of trouble among a lot of carriages in Boroona avenue, Long Island City. They were lined up there waiting their turn to get on the ferryboats. A man was leading the cow along the avenue with about twenty feet of rope when she started to cut up capers.

The carriage drivers heard shouts of warning and they put on whip and got out of the way. She dragged the man at the end of the rope along two blocks, while the crowds ran for cover.

At last the cow ran close up to a waiting hearse and caught a glimpse of herself in the big glass side of it. There she halted, stock still, and the man at the end of the rope had to call two policemen to get her under way once more.

A SAYING.

He who expects favors should always be ready to grant them.—Buddha.

I CURED MY RUPTURE
I Will Show You How To Cure Yours FREE.
I was helpless and bed-ridden for years from a double rupture. No truss could hold. Doctors said I would die if not operated on. I fooled them all and cured myself by a simple discovery. I will send the cure free by mail if you write for it. It cured me and has since cured thousands. It will cure you. Write today. Capt. W. A. Collins, Box 207, Watertown, N. Y.

WOODMAN SPARED THIS TREE

Spares Patriarch Tree That Sheltered Many

Supt. Lanham Refuses to Destroy a Famous Landmark.

By reason of the tree's peculiar location in the middle of the sidewalk, Mr. Knowles stated in a letter, it obstructed the passage of pedestrians and was otherwise objectionable. When asked to give his opinion as to the tree's usefulness, Mr. Lanham informed the Commissioners that it is a large maple with spreading branches offering friendly shelter to passersby, and has long been regarded by residents of that portion of Georgetown with particular favor. The tree, Mr. Lanham stated, was neither a nuisance nor dangerous and he therefore saw no reason why it should be removed. Mr. Lanham added that although the tree was one planted long ago by the old Georgetown corporation, it is still sturdy and healthy and bids fair to live a long time. Mr. Lanham's plea was sustained by the Commissioners and this patriarch tree will remain to give friendly shelter to that section, notwithstanding Mr. Knowles' objection.

BAKERS MUST KEEP THEIR BREAD CLEAN

Dr. Woodward Censures Methods of Delivery.

CITES GLARING INSTANCES

Tells of Driver Who Examined Horse's Hoof, Then Carried Loaves to Customer Before Washing.

Bakers throughout the District will be asked to instruct drivers of delivery wagons to adopt precautions against allowing bread and pastry to come in contact with dirt and foreign substances that might communicate the germs of disease to consumers.

The request is in the form of a letter from Dr. W. C. Woodward, District Health Officer, to the officials of various baking concerns. Dr. Woodward is of the opinion that drivers are often careless in delivering bread and pastry to customers, and that to protect customers the proper authorities should be asked to take corrective measures.

The letter in part is as follows:

Exposed to Dirt.
"It appears to be the universal custom for bakers and those delivering bread and pastry, to deliver the same without covering of any kind or nature. The bread is taken from the wagon uncovered in the hands of the driver, sometimes an armful wholly exposed to the air, dust and dirt, and frequently to the dirty hands of the men delivering. Very often the bread will fall to the pavement, only to be picked up and carried to the customer, who is ignorant of the fact."
"I noticed only recently a bakery wagon stopped in front of a house, where the driver examined the hoof of his horse, who appeared lame, and then, without gloves or cleansing his hands, took several loaves of bread in his arms, at the same time coughing violently over the bread. This circumstance, with others, I imagine, are of daily occurrence."

Dr. Woodward concludes with the suggestion that it might be desirable to pass a regulation requiring all bread and pastry to be inclosed in a paper bag or some covering to protect it from such exposure, and asks the bakers to express their opinions as to its desirability.

WHERE MILD WINTER HURTS.

The humorist gnashed his teeth. And he tore his hair.
"Ah," he wailed, "me for ashes, sackcloth, and mourning."
"This mild winter hath well-nigh ruined me business!"
"For it hath killed all me jokes about the plumbly by not causing any freeze-ups in the pipes!"

Chewing Gum Costs More Than Foreign Missions

Statistics Reveal Sad State of Affairs—Liquor Costs a Billion.

The twenty-seventh annual meeting of the Woman's Foreign Missionary Society of the presbytery of Washington was held today in the Eckington Presbyterian Church. Officers for the year will be elected this afternoon.

During the months past the society has been interesting itself in collecting much data of an unusual character. This morning the walls of the church were hung with various banners bearing the results of many calculations.

Chewing Gum, \$11,000,000.

Among the most interesting figures compiled were those showing how Americans spend their money. Glaring out at one in striking illustration was the fact that Americans spend \$11,000,000 for chewing gum while only \$7,500,000 goes for foreign missions. Just how these calculations have been made is not disclosed on the chart, but certain amounts of money are represented by small blocks. For confectionery there are enough blocks to make \$13,000,000, and of jewelry and plate \$700,000,000. It is stated that \$200,000,000 goes for tobacco, \$30,000,000 for military, while \$250,000,000 is dispensed in church work at home. The last announcement lies in the statement on the chart that the expenditures on liquors amount to \$1,243,000,000.

Another chart showing the religious census of the world discloses the fact

How the Money Goes.

For liquors	\$1,243,000,000
Tobacco	750,000,000
Jewels and plate	700,000,000
Millinery	80,000,000
Churches at home	250,000,000
Chewing gum	11,000,000
Foreign missions	7,500,000

that there are \$36,732,000 heathen on the globe. Of Protestants there are 108,000,000; Catholics, 22,835,000; Eastern-Greeks, etc., 130,157,000; and Mohammedans, 216,650,000.

Proceeding the annual meeting the society held its regular quarterly meeting, during which a number of reports were read.

Proceedings of Meeting.

Mrs. Charles W. Richardson presided at both meetings today. Early in the annual session Mrs. Isaac Pearson read the report of the recording secretary, and was followed by Miss Virginia General, corresponding secretary; Mrs. Joseph S. Chamberlain, secretary of literature; Mrs. Paul W. Fishbaugh, secretary of Little Light Bearers; Mrs. D. E. Wiber, secretary of Young People's Work, and Mrs. J. A. Travis, treasurer of the society.

Proceeding the luncheon hour, Miss Esther Shields made an interesting address. Miss Shields is from the Royal Hospital at Seoul, Korea, and had many interesting things to tell the society of conditions in Korea.

Before the close of this afternoon's session Mrs. Percy H. Babcock, of Hudson, Ohio, will give a "Travel Talk," Miss Gertrude Ross, Miss M. E. Wood, and Miss Julia Fernald read reports for the young people's societies.

WOULD BUY SHERIDAN'S RIDE AT COST OF \$5,000

Senator Platt Introduces Bill to Purchase Famous Canvas for Capitol Corridor.

Senator Platt introduced a bill in the Senate today authorizing the purchase of the original painting of Gen. Philip H. Sheridan on his favorite horse, Rensselaer, known as "Sheridan's Ride" from its present owner, Mrs. Richard H. Savage at a cost of \$5,000. The picture when purchased is to be hung in the corridor of the Capitol.

Senator Penrose introduced a bill authorizing the excise board to issue licenses for the sale of intoxicating liquors at duly incorporated clubs in the District of Columbia, upon the petition of the officers of said club, if accompanied by the permission of five adjacent property owners to said clubhouse. The bill is proposed as an amendment to section 5, chapter 29, of supplement of the Revised Statutes. The bills were referred to the Senate Committee on the District of Columbia for consideration and report.

LITERATURE FOR JAIL WISHED BY MISSIONARY

The Rev. James B. McLaughlin, who takes an active interest in the religious work at the District Jail, says he will be glad to distribute suitable literature among the prisoners in that institution. If left at his office in the Columbia building, there are three daily services each Sunday at the jail for the prisoners and there is some literature distributed among them, but that is not enough.

Each Saturday, Mr. McLaughlin visits the jail and takes with him such literature as he can collect for distribution among the prisoners.

SHIPMENT OF LIQUOR WARMLY DISCUSSED

House Committee on Judiciary Hears Arguments on C. O. D. Deliveries in Prohibition States.

Arguments by members of the House on various pending bills to restrict the C. O. D. shipment of intoxicating beverages into prohibition communities were heard today by the House Committee on Judiciary.

Representative Boutell of Illinois opposed the proposed legislation, which was advocated by Representative John S. Williams. In his remarks against the bills Mr. Boutell paid a high tribute to the German-American, saying "they, with their singing, their love of outdoor exercise, and their beer," have done much to help this country. He had noticed, he said, that those who once criticized the free Sunday of German-Americans now "play the lonesome game of golf" on the Sabbath. He mentioned that the German-Americans oppose the pending bills.

ANTI-CIGARETTE BILL HAS WHIPPING PENALTY

LONDON, March 20.—Two bills, intended to prohibit the sale of tobacco and cigarettes to persons under the age of sixteen, are soon to be presented in parliament. One is formulated by the Anti-Cigarette League and the other by Dr. McNamara, a well-known reformer. A special provision of both bills forbids candy stores from selling tobacco and cigarettes at all, as such places are much frequented by children. A fine and imprisonment for a second offense are the penalties provided by the proposed law on the shopkeepers, and corporal punishment for the offending minor.

SHEPPARD EXPECTS TO GO TO PROVE

Famous Runner Will Set Up Alibi Against Charge of Competing in Professional Races.

Robert Hallen, the professional runner, who is protesting Melvin Sheppard on the ground that he is a professional, charges that Sheppard competed at the Caledonian games at Maspeth, L. I., on Labor Day, 1904, winning the one and three-mile runs, and also ran at the Clan-na-Gael games at Philadelphia on July 4, 1906, where he won the one-mile and was unplaced in the three-mile run. Sheppard is alleged to have competed in these games under the name of Alvin Smith.

Sheppard denies the charges, and on Thursday will go before the registration committee of the Amateur Athletic Union, in New York, with affidavits showing that he not only did not compete in the days these races were run, but that he was in another place on the days these races were run. Sheppard will very likely be added to the American Olympic team of athletes to compete at Athens. He surely will if the professional charges against him are found to be untrue.

Sheppard is a natural runner and very fast. He has been doing remarkable work on indoor tracks, having run half a mile in 1:54.3, one mile in 4:22, and 1,000 yards in 2:22.5 on a slow track.

MATRIMONIAL NOTE.

People who marry for money seldom get interest.—Confectioners' Review.

"It Pays to Deal at Goldenberg's"

"The Dependable Store"
Seventh and K Streets

5,000 Yards of 15c

This excellent Oak-frame Couch, claw feet, good upholstery; covering of pretty velvet; deep tufting; an exceptionally good value at \$8.35

THE WINNING STROKE

If more than ordinary skill in playing brings the honors of the game to the winning player, so exceptional merit in a remedy ensures the commendation of the well informed, and as a reasonable amount of outdoor life and recreation is conducive to the health and strength, so does a perfect laxative tend to one's improvement in cases of constipation, biliousness, headaches, etc. It is all important, however, in selecting a laxative, to choose one of known quality and excellence, like the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., a laxative which sweetens and cleanses the system effectually, when a laxative is needed, without any unpleasant after effects, as it acts naturally and gently on the internal organs, simply assisting nature when nature needs assistance, without griping, irritating or debilitating the internal organs in any way, as it contains nothing of an objectionable or injurious nature. As the plants which are combined with the figs in the manufacture of Syrup of Figs are known to physicians to act most beneficially upon the system, the remedy has met with their general approval as a family laxative, a fact well worth considering in making purchases.

It is because of the fact that **SYRUP OF FIGS** is a remedy of known quality and excellence, and approved by physicians that has led to its use by so many millions of well informed people, who would not use any remedy of uncertain quality or inferior reputation. Every family should have a bottle of the genuine on hand at all times, to use when a laxative remedy is required. Please to remember that the genuine Syrup of Figs is for sale in bottles of one size only, by all reputable druggists, and that full name of the company—California Fig Syrup Co., is plainly printed on the front of every package. Regular price, 50c per bottle.

CALIFORNIA FIG SYRUP CO.
